14. Estimated time required to complete the application of water to beneficial use Ten (10) Years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

Water is to serve existing customers only on municipal service with TMWA. The original Permit 57820 was approved for 1 cfs not to exceed 560.0 afa and has since been abrogated. Permit 57820 left the Stanford Way well lacking a rate of flow to pump its well and water rights to full capacity. The additional 0.23 cfs gives TMWA the ability to pump its base Permit 17585 to full capacity. The Sparks Police Department well Permit 69133 will be reduced to 0.77 cfs not to exceed 560.0 afa upon approval of this Application.

16. Miscellaneous remarks:

The transfer of 0.23 cfs to the Stanford Way well supplements the 53.494 mga (164.17 afa) lacking a rate of flow in base Permit 17585. There is no duty being transferred with this Application only cfs.
